

3.5 HDD DATA SHEET

The Power of Agility for Creative Pro and SME NAS Enclosures

IronWolf[™] Pro is designed for everything business NAS. Get used to tough, ready, and scalable 24×7 performance that can handle multidrive environments across a wide range of capacities.

Best-Fit Applications

- Commercial and enterprise network-attached storage (NAS)
- 1- to 24-bay network attached storage (NAS)
- Backup, archiving, and disaster recovery
- On-premise private cloud
- Virtual storage

Key Advantages

Optimized for NAS with AgileArray[™]. AgileArray enables dual-plane balancing and RAID optimization in multi-bay environments, with the most advanced power management possible.

Actively protect your NAS with IronWolf Health Management focusing on prevention, intervention, and recovery.¹

High performance means no lag time or downtime for users during workload traffic for the NAS. Seagate leads the competition with the highest-performing NAS drive portfolio.²

Rescue Data Recovery Services. IronWolf Pro comes with extra peace of mind for any mechanical, accidental, or natural disaster. With a 95% success rate of in-house recovery, Seagate has your back with a 3-year included Rescue Services plan.⁴

Rotational Vibration (RV) sensors. First in its class of drives to include RV sensors to maintain high performance in multi-drive NAS enclosures.³

Range of capacities up to 18TB. More capacity options means more choices that will fit within the budget. Seagate provides a scalable solution for any NAS use-case scenario.

Do more in multi-user environments. IronWolf provides a workload rate of 300TB/year. Multiple users can confidently upload and download data to the NAS server, knowing IronWolf can handle the workload, whether you are a creative professional or a small business.

Designed for always on, always accessible 24x7 performance. Access data on your NAS any time, remotely or on site.

1.2M hours MTBF, 5-year limited warranty represents an improved total cost of ownership (TCO) over desktop drives with reduced maintenance costs.

- 1 Contact your Seagate sales representative for further information.
- 2 Performance may vary depending on user's hardware configuration and operating system.
- 3 Registration required to activate. Rescue Data Recovery Services not available in all countries. Contact your Seagate sales representative for further details
- 4 Three-year coverage for product models shipped January 1, 2020, or later

¹ Seagate recommends validating your configuration with your HBA/RAID controller manufacturer to ensure full capacity capabilities.
2 Supports Hot-Plug operation per Serial ATA Revision 3.3 specification.
3 Rescue Data Recovery Services not available in all countries. Contact your Seagate sales representative for further details. Register an IronWolf Pro drive to activate your 3-year Rescue Services plan at seagate.com/register.
4 Seagate does not recommend operating at sustained drive temperatures above 60C. Operating at higher temperatures may affect drive health.

¹ Seagate recommends validating your configuration with your HBA/RAID controller manufacturer to ensure full capacity capabilities.
2 Supports Hot-Plug operation per Serial ATA Revision 3.3 specification.
3 Rescue Data Recovery Services not available in all countries. Contact your Seagate sales representative for further details. Register an IronWolf Pro drive to activate your 3-year Rescue Services plan at seagate.com/register.
4 Seagate does not recommend operating at sustained drive temperatures above 60C. Operating at higher temperatures may affect drive health.
